TECHNICAL SKILLS

- **Programming Languages:** Python, JavaScript
- **AI Tools & Framework :** OpenAI, Langchain, Strands, AWS Bedrock
- **Database:** MySQL, PostgreSQL, MongoDB, Pinecone, Vector Database
- **Tools & OS:** Git, BitBucket, Docker, VS code, Linux, Windows
- **Skills:** Python, React.js, Node.js, Express.js, Html, TailwindCSS, CSS, Flutter, AWS, Material UI, FastAPI and RESTful APIs

EXPERIENCE

William O'Neil India

Software Engineer - I

April 2025 – Present

Bengaluru, Karnataka

- Developed an AI-powered HR chat application with end-to-end full stack ownership.
- Built scalable backend APIs using Python & FastAPI, integrating LangChain and OpenAI APIs for intelligent, context-aware conversations.
- Implemented Pinecone vector database for semantic search and retrieval-augmented generation (RAG).
- Designed and developed a React-based web application for a responsive and intuitive chat experience.
- Containerized backend services using Docker, ensuring consistent environments across development and production.
- Automated build and deployment workflows using GitLab CI/CD.
- Deployed and managed the application on AWS, ensuring scalability, security, and reliability.

Mobiotics It Solutions Pvt Ltd

Full Stack Developer

August 2023 – April 2025

Bengaluru, Karnataka

- Built and optimized RESTful APIs using Node.js & Express.js, improving performance by 10–30% through efficient query handling and code optimization.
- Developed a Subscriber Management System, deploying scalable APIs on AWS Lambda.
- Designed backend services for a Partner Analytics Portal using Cube.js, containerized with Docker, and deployed on AWS EC2.
- Implemented secure JWT-based authentication & authorization, including session and refresh tokens.
- Integrated third-party services by building custom wrapper APIs.
- Migrated a video/audio transcoding system from PHP to Node.js, improving scalability and maintainability.
- Deployed batch processing workloads using AWS Batch, Docker, and AWS ECR.
- Managed media storage and transfers using AWS S3.

EDUCATION

Master Of Computer Applications

RV College Of Engineering – Bengaluru

2023

CGPA: 8.2/10

CERTIFICATIONS

Python Certification by Hacker Rank, Microsoft Azure A-Z 900, AI Agent development certification by Langchain

PROJECTS

GenAI-Powered Chat Application: Designed and developed a cost-optimized, AI chat application using AWS Bedrock Claude model with a python strands framework backend, deployed on AWS bedrock agent core.

Android Based Vehicle Parking System: Developed an Android-based vehicle parking system using IoT devices, Flutter for the mobile application, and Python, PostgreSQL for backend.

Paying Guest Website: Developed website for PG owners to list their properties and for students to find PGs.
